<sup>1</sup>The University prepares and presents its Operating Budget in a current funds format. The current funds format shows gross student tuition and fees and does not net out scholarship allowances, as required in the financial statements which are prepared in the GASB Nos. 34/35 format. Scholarship allowances are shown as an expense item. In addition, the University's current funds format includes equipment purchases as an expense, does not include depreciation or amortization, does not include pension and OPEB expenses as it relates to GASB 68 and does not include the State debt service commitment for principal and interest. All expenses related to legal matters in the current funds format are reflected in the fiscal year that they are paid.

Note: Totals may not add due to rounding.

### **State Support of the University – Appropriations**

The State develops a biennial budget, which includes the University appropriation request. The appropriations are applicable to each specific year and the second year's appropriation is subject to review and adjustment. The annual State appropriation the University receives is in the form of a block grant and is allotted quarterly. The University has independent authority to purchase goods and services; hire, fire and promote administrators, faculty, and staff; and plan, design, and construct capital projects. Public Act 25-168 appropriated \$268.2 million in block grant to the University, as well as a \$1.0 million fringe reimbursement related adjustment to the University for Fiscal Year 2026 and a \$253.5 million block grant and \$1.0 million fringe reimbursement related adjustment for Fiscal Year 2027.

Beginning in Fiscal Year 2024, the State implemented a change in its fringe benefit funding structure, intended to be budget-neutral, now covering all retirement fringe costs for all University employees participating in

State-sponsored retirement plans. As a result, the University did not pay retirement costs for these plans beginning in Fiscal Year 2024 and these costs and the associated State funding are not included in the budget.

No assurance can be made that the State will not change the Fiscal Year 2026 funding prior to the end of such fiscal year. Any State funding cuts are expected to be managed by the University through reduced hiring, reduced operating costs, fewer projects, and other deficit mitigation efforts.

**The University of Connecticut Foundation, Inc.**

The University of Connecticut Foundation, Inc., (the “Foundation”) is a separate entity that supports the mission of the University. For financial reporting purposes, the Foundation is an independent, privately governed institution, which is separately audited. The Foundation operates exclusively for charitable and educational purposes, raising funds to promote, encourage, and assist education and research at the University and UConn Health. The Foundation solicits and accepts donations of properties, monies, and securities and invests and administers these gifts. The Foundation materially supports the mission of both the University and UConn Health.

Gift revenue to the University, both capital and noncapital, is derived from gifts made directly to the University and from the Foundation. These spendable funds are provided to the University for educational, cultural, recreational, and research activities. The Foundation disburses funds to the University as requests are made, provided the request is in accordance with donor restrictions, if any. These disbursements paid to the University and to third parties on behalf of the University from the Foundation totaled approximately \$65.0 million in Fiscal Year 2025 compared to \$50.3 million in Fiscal Year 2024. In addition, the University receives gifts directly. Total non-operating gifts and capital gifts and grants revenue to the University from all sources amounted to \$14.2 million and \$12.7 million in Fiscal Years 2025 and 2024, respectively.

Giving University-wide continued at high levels, with contributions of \$144.2 million to support the University students, faculty, and programs during Fiscal Year 2025. Of the \$144.2 million in new gifts and commitments, \$45.1 million was directed for scholarships and fellowships, \$76.3 million for program support, \$17.2 million for research, \$1.8 million for faculty support, and \$3.5 million for capital improvements. Donors contributed \$37.0 million to the University’s endowment. The endowment portfolio was valued at \$668.6 million at the end of Fiscal Year 2025, including \$281.0 million for scholarships and fellowships, \$172.4 million for endowed chairs, professorships and other faculty support, and \$215.1 million for programmatic priorities. Endowed funds are managed by the Foundation Board of Directors’ investment committee, Foundation management, and staff. The endowment is managed as a single portfolio, but funds are invested in various asset classes to diversify risk.

**University Indebtedness**

The UCONN 2000 Act, as amended, empowers the University to borrow money and issue securities to finance the acquisition, construction, reconstruction, improvement or equipping of any UCONN 2000 project and to provide for the security and payment of those securities and to refund such securities. Toward this purpose, to date, the University has issued General Obligation Bonds and Special Obligation Bonds, entered a privately placed Governmental Lease Purchase Agreement, and assumed a promissory note associated with the purchase of the Nathan Hale Inn on the Storrs Campus. As of December 31, 2025, certain General Obligation Bonds and Special Obligation Bonds will remain outstanding. The promissory note associated with the purchase of the Nathan Hale Inn was retired on December 1, 2016 and the Governmental Lease Purchase Agreement was retired on December 12, 2025.

The University of Connecticut General Obligation Bonds are issued pursuant to the Master Indenture of Trust, as amended (the “Master Indenture”), are secured by the full faith and credit of the University and are additionally secured by the pledge of and a lien upon the State Debt Service Commitment. The State Debt Service Commitment is defined by the Act and the Master Indenture as the commitment by the State to pay an annual amount for the punctual payment of Special Debt Service Requirements on certain securities issued as general obligations of the University, as the same shall arise and shall become due and payable. Special Debt Service Requirements include, among other things, the principal and sinking fund installments for and interest accruing on such General Obligation Bonds. As of December 31, 2025, the University’s General Obligation Bonds principal outstanding will be \$1,459,350,000.

The University of Connecticut Special Obligation Bonds are issued pursuant to the Special Obligation Indenture of Trust, as amended (the “Special Obligation Master Indenture”). The Board of Trustees approved the Special Obligation Master Indenture on November 8, 1996. Unlike the UCONN 2000 General Obligation Bonds that are paid from the State’s General Fund, debt service on the Special Obligation Bonds is paid from certain pledged revenues, including student fees of the University as defined in the Special Obligation Master Indenture. To date, eleven projects have been authorized to receive \$441,180,000 of the UCONN 2000 Special Obligation Bond proceeds, and these projects may also be supported by the University’s General Obligation Bonds, State General Obligation Bonds or other funding. As of December 31, 2025, the University’s Special Obligation Bonds principal outstanding will be \$248,825,000.

In addition to UCONN 2000 indebtedness, the University has certain other limited indebtedness; see Schedule 1, "AUDITED FINANCIAL STATEMENTS OF THE UNIVERSITY FOR FISCAL YEAR ENDED JUNE 30, 2025".

The following schedule sets forth the debt service payments to be made in each fiscal year on the General Obligation Bonds issued and outstanding by the University as of December 31, 2025.

In addition to actual results of operations for Fiscal Years 2022-2025, the following schedule reflects the Fiscal Year 2026 Spending Plan.

<sup>1</sup> Statement of Current Funds Operations results exclude certain non-operating expenses as well as year-end adjustments such as the GASB 68 and GASB 71 adjustments. These items are not presented in the UConn Health spending plan. These amounts totaled \$252.7 million, \$82.2 million, and \$217.4 million for Fiscal Years 2022, 2023, and 2024 respectively. In fiscal 2025, UConn Health derecognized Pension and OPEB liabilities associated with GASB 68 and 71 leading to a reduction of expenses of \$2.4 billion.

<sup>2</sup>See "STATE SUPPORT OF UCONN HEALTH-APPROPRIATIONS" section for details on the change in fringe benefit reimbursement from the state.

Note: Totals may not add due to rounding.

## State Support of UConn Health – Appropriations

The State develops a biennial budget, which includes UConn Health's appropriation requests. The appropriations are applicable to each specific year and the second year's appropriation is subject to review and adjustment. In June 2025, the State's budget for Fiscal Year 2026 was approved by Public Act 25-168 (HB-7287). The approved appropriation for UConn Health was \$143.5 million (\$141.7 million operating expenses, \$1.015 million Endometriosis program, \$150k Migraine Study, \$430k AHEC and \$178k Poison Control Program) for Fiscal Year 2026 and \$139.3 million (\$135.5 million operating expenses, \$1.015 million Endometriosis Program, \$150k Migraine Study, \$430k AHEC and \$178k Poison Control Program, \$2.0 million Neuromodulation Treatment) for Fiscal Year 2027.

Beginning in Fiscal Year 2024, the State implemented a change in its fringe benefit funding structure, intended to be budget-neutral, now covering all retirement fringe costs for all UConn Health employees participating in State-sponsored retirement plans. As a result, UConn Health did not pay retirement costs for these plans beginning in fiscal year 2024 and these costs and the associated State funding are not included in the budget.

## Grants and Contracts

Revenue from federal, state, local and non-governmental grants and contracts totaled \$120.3 million in Fiscal Year 2025, representing 8.5% of total operating revenues reported by UConn Health in the Statement of Revenues, Expenses and Changes in Net Position for the Fiscal Year ended June 30, 2025. If nongovernmental grants are excluded, the revenue from federal, state, and local governmental grants and contracts totaled \$98.7 million for this time period, which represented 6.2% of total operating revenues.

## UConn Health Long-Term Liabilities

Summarized information on UConn Health long-term liabilities is presented in the UConn Health Financial Statements in Schedule 2 herein.

In addition to the Malpractice Fund, UConn Health also maintains certain accrued compensated absences, to the extent that they are not expected to be utilized in the current year, as long-term liabilities. These amounts have been accrued as payables and will offset future payroll expenses as they are utilized.
